top cyberlawyers in the world

Copilot

The field of cyber law is constantly evolving, and there are many experts who are recognized for their contributions. Here are some of the top cyber lawyers and thought leaders in the world:

- Dr. Pavan Duggal: He is a practicing Advocate in the Supreme Court of India specializing in Cyber law, E-commerce Law, Mobile law, Privacy Law, and Intellectual Property Rights. He has been acknowledged as one of the top 4 Cyber Lawyers around the world [1](#).
- Donna Wilson (Manatt), Erin Nealy Cox (Kirkland), and Noah Phillips (Cravath): These individuals are among the 500 global cyber lawyers recognized by Lawdragon for their work in data and security, innovation, litigation, and exploration [2](#).
- Michael Rhodes and Travis LeBlanc: Partners at Cooley, named Top Cyber Lawyers by the Daily Journal for their expertise in cyber, data, privacy, and internet practice groups [3](#).
- Cameron Abbott (K&L Gates), Elizabeth D. Adler (King & Spalding), and Imran Ahmad (Norton Rose): These professionals are known for their work in technology, cybersecurity, privacy, data breach counsel, and class actions [2](#).

These professionals have made significant contributions to the field of cyber law, and they often participate in conferences, workshops, and educational initiatives to share their knowledge and expertise. If you're interested in strategic planning and innovative offerings related to AI and legal matters, these thought leaders could provide valuable insights. Would you like to know more about emerging markets in cyber law or any specific judgments and legal definitions?
